

# Primavera P3E Version 4.1 SDEF Conversion Program

This file coupled with Primavera's help file in PDF format should be all that is needed to use the SDEF conversion program with P3E version 4.1. Primavera has committed to releasing an update by the end of 2005 that will work with their current version 5.0.

Since the Primavera help file is very detailed, this file was only generated to give the user an opportunity to see the screen shots before they occur so he has an understanding of the entire process. The steps in the pictures below correlate to steps in the Primavera help file.

## XER to P3/SDEF Project Conversion
