

RMS 3 Patch 232 Release Notes

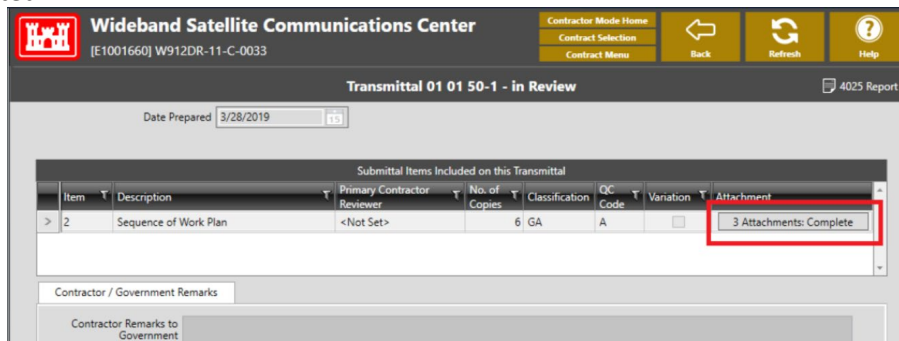

- QA Signature Position moved for title
 - QA Daily Report – moved the signature higher to prevent below image:

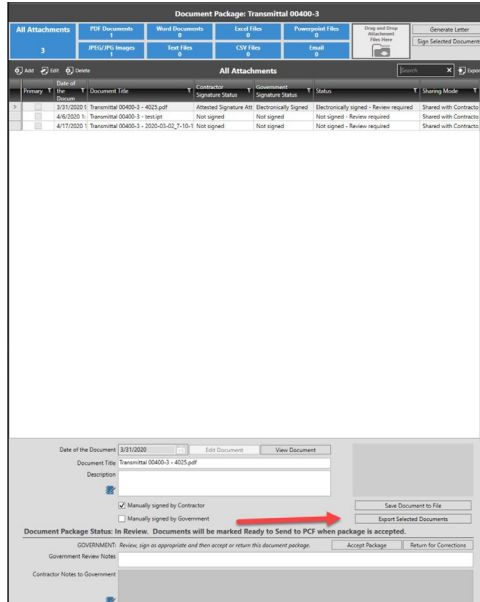

- Fixed rejected payroll disappearing (Internal)
 - GM Mode → Contractor Payrolls → Reject Payroll → Hit Back Button resulted in payroll disappearing
- Fix for transmittal append error when signing
 - 4025 bug when trying to sign – “Append mode requires a document without errors, even if recovery is possible.”

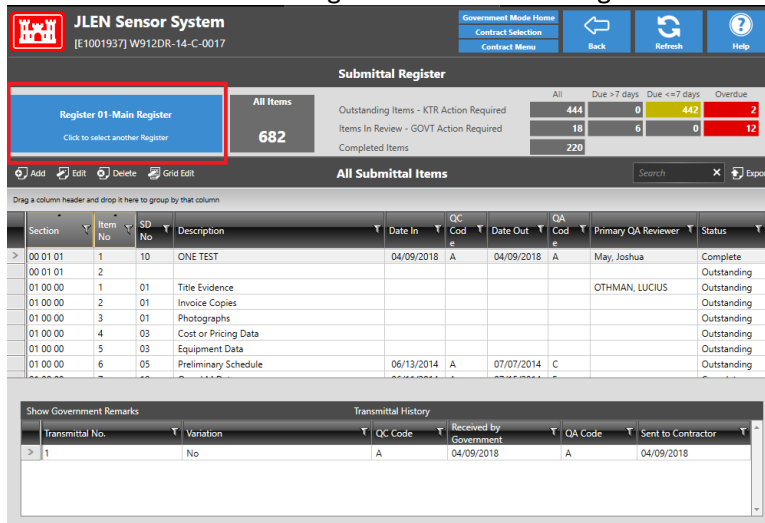

- Fixed an issue with SMS not being sent
 - Administration → Contract Notifications
- Fixed an issue with some contracts where the contract monthly progress was not updating after a progress payment was paid
- Fixed an issue with the Staff view not updating after adding new staff members
 - RMS Staff View → Add a new user (user should now appear in the selection list without needing to exit screen and come back in)
- Fixed an issue with individual submittal packages being editable after a transmittal was completed

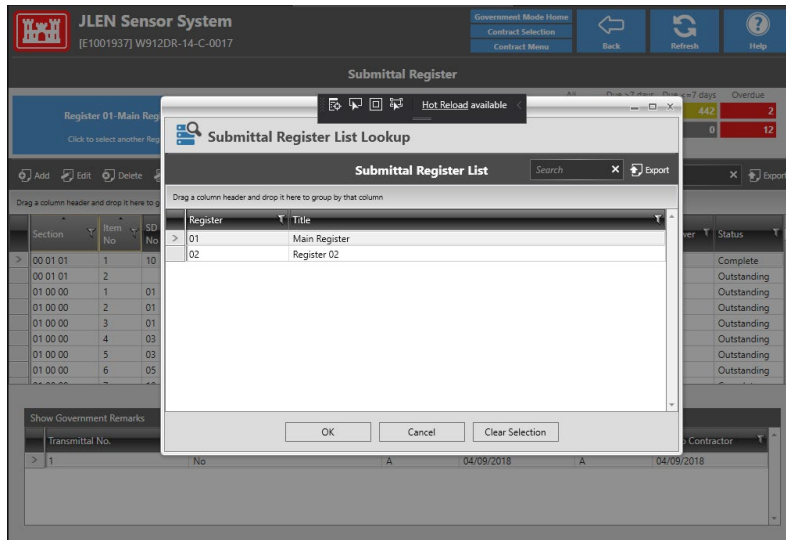

- Downloading all documents in a document package is a lot more obvious

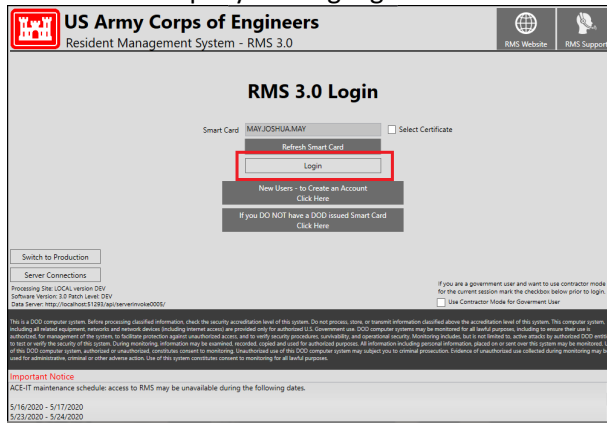

-
- Fixed an issue where some email accounts were getting locked after successful password resets
- Fixed an issue where RMS 3 would not allow contractor staff deletions
- Fixed an issue where changing submittal registers caused a crash
 - Submittals → Submittal Register then click the Register 01 Main Register blue tile

○

-
- Fixed an issue where rapidly clicking login button caused a crash

-
- Fixed an issue where signatures were not pulling names from new staff entries in RMS Users
 - RMS Staff → Edit Staff → Signature Block Add (Name box was blank)

RMS Staff - User ID ptestp
