1 Introduction

This document provides the details of the RMS application changes to accommodate the upgrade to patch 258, which was released on January 25, 2021.

1.1 Overview

The changes for this release are summarized below:

1. Bug Fixes

- Daily Report Bug.
- Linked Modifications in supporting documents bug.
- Contract Change bug.
- Milestone copy bug.

1.2 Contact

If issues or concerns should arise, please contact the Help Desk.

- Toll Free: 210-473-8658 – RMS Helpdesk Tech Support Center
- Operation Hours: 24/7, excluding holidays

2 Bug Fixes

2.1 QC Daily Reports Bug

Fixed a bug in the QC Daily Reports where thousands of blank pages were generated when printing all the daily reports for a contract.

2.2 Office Milestone Copy Bug

Fixed a bug in the Milestone copy feature – copying milestones from one office to another would result in a crash if the office already had the milestone RMS was attempting to copy.

2.3 Contract Changes – Unchecking “Change Includes Adjustments to Quantities on Existing CLINs” sometimes caused a crash

Inside of Contract Changes, unchecking the “Change Includes Adjustments to Quantities on Existing CLINs” sometimes resulted in RMS crashing. This has been fixed.

2.4 Supporting Documents in Contract Changes

Fixed a bug where adding supporting documents to Contract Changes (linked to modifications) resulted in those documents not actually linking and being empty.
