2 Change Requests

CRQ 1139 – Add Remarks section to the Contract Status Sheet report to mimic the Remarks column in the Status of Construction Report

The "Status of Construction" report gives the person creating the report the option to include Issues/Remarks Date, Remarks, Issues-Customer, Issues-USACE and Status Code/Delay Code.

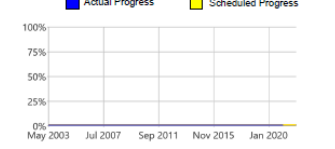

"Remarks" section has been added to the Contract Status Sheet to display the data "Issues/Remarks Date", "Remarks" and "Status Code".

3 Bug Fixes

CEFMS download now has notification of successful or unsuccessful download.

RMS now notifies users if there is a problem with the CEFMS download.

Maintain contract selection when establishing contract rights in user roles in RMS staff.

In the RMS Staff module (Government Mode), if the user already has contracts selected for a user role, doing a search would remove selected contracts. This has been fixed.

Contract action items filter – contractor payroll bug fixed.

The checked by filter was not working correctly on this report and has now been fixed.

Contractor action items report – fixed an issue where the report was indicating that there are missing payroll records that aren't really missing.

Changing a contractor's payroll ending day of the week created problems where payroll dates were missing. For example, if there were payrolls for Sunday and the payroll week ending day gets changed to Saturday, the payrolls already accepted will stay corrected but future payrolls on Sunday won't be generated anymore.

Contractor action items report – fixed inaccurate reporting of incomplete qc daily reports.

QC Daily Reports showing not complete on the action items were not displaying in the QC Daily Reports – Not Completed QC Reports tile. This has been fixed.

Contractor action items – fixed incorrect payroll dates showing as payroll required.

Fixed an issue where incorrect payroll dates were sent and unable to be removed despite changing the data to remove them. RMS will now correctly check payroll during a 7-day period ending on the USACE's ending day of week.

Contractor action items – resolved an issue with payroll showing incorrectly delinquent.

Fixed an issue where contractor payrolls were being flagged as problems when the contractor was no longer on site. RMS no longer checks after last day on site for contractors.

Fixed a bug where signing payroll statement of compliance caused an exception.

Payrolls → Fill out a payroll → Generate compliance certification → After entering a password to sign, RMS would crash in certain cases. This has been fixed.
