1 Introduction

This document provides the details of the RMS application changes to accommodate the upgrade to patch 286, which was released on May 18, 2021.

1.1 Overview

The changes for this release are summarized below:

1. Change Requests
 - CRQ 1092 – Store Who Signed 4025 and Show Paragraph / Drawings on Transmittal Screen.
 - Remove PII Banner from RMS Screens.
2. Bug Fixes
 - Activity Schedule Comparison Report – Predecessor Type Fix.
 - Active Project Sort Options.
3. Telerik Report Fixes
 - Fixed Section Repeats in the QC Daily Report.
 - Fixed an issue to standardize Telerik report templates.
 - Investigated an Issue where Telerik Reports were not Searchable in Adobe PDF.
 - Fixed Several Bugs with Contract Status Sheet:
 - Modification Types under Estimated Contract overlapped if the modifications were credits.
 - Boxes have been added to Scope / Issues-USACE / Issues-Customer to separate the header from text body.
 - Fonts are now consistent in the RFI Form.
 - Fixed several layout issues with the ENG 93 report.
 - Fixed header issue on the RFI Summary Report.
 - Fixed security markings on QA/QC Daily Reports.
 - Updated the footer security markings with the CUI Marking Handbook requirements (Controlled).
 - Fixed several formatting issues with Activity Schedule differing from Fast Reports.
 - Fixed CSV Exports Showing Textboxes on the CSV.

1.2 Contact

If issues or concerns should arise, please contact the Help Desk.

- Toll Free: 210-473-8658 – RMS Helpdesk Tech Support Center
- Operation Hours: 24/7, excluding holidays

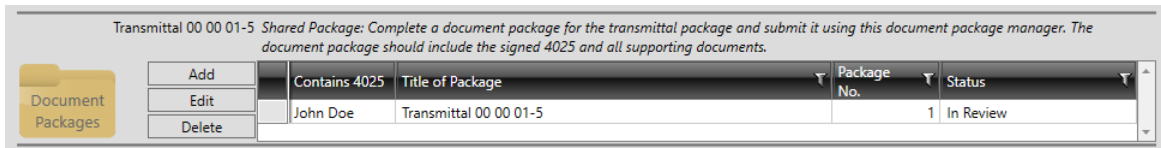

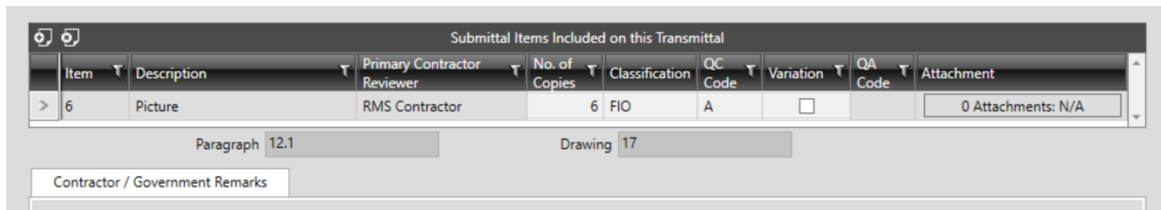

2 Change Requests

CRQ 1092 – Store Signer of ENG 4025 and Show Paragraph / Drawings on Transmittal Screen

The Transmittal Log screen now shows the Paragraph and Drawing number of each submittal item when the submittal item is selected, without having to open the submittal.

The Document Package also reports who signed the 4025 last.

Please note that this feature only works for Transmittals signed from this point forward (as the names are now being stored in the RMS database).

Remove PII Banner from RMS Screens

RMS no longer has PII banners on any screen (login, interview, or payrolls).

3 Bug Fixes

Activity Schedule Comparison Report

Fixed an issue on the Activity Schedule Comparison Report where the predecessor type of C incorrectly was set to Start to Finish instead of Finish to Start.

Active Project Sort Options

RMS 2.38's Active Projects is now the same as RMS 3's Awarded Contracts – Construction Not Complete.

4 Telerik Report Fixes

Fixed Section Repeats on QC Daily Report

Fixed an issue where sections repeated in the Labor Hours area of the QC Daily Report.

Fixed an Issue to Standardize Telerik Report Templates

Several global variables were configured to help standardize Telerik Reports across the board.

Some Users Reported Telerik Reports Not Searchable in Adobe PDF

Several users reported problems not being able to search Telerik Reports that have been exported to Adobe PDF. Please make sure when exporting PDFs that the Save As PDF option is used (not print to PDF). Also, purging Adobe Reader Cache has worked for several users to restore Telerik PDF searching (Adobe Reader -- Edit → Preferences → Search --- Purge Cache Contents and check "Enable Fast Find" in the settings).

Fixed Several Issues with Contract Status Sheet

Fonts are More Consistent on RFI Form

Fixed Several Layout Issues with ENG 93 Report

This report is still in development and will be finalized next sprint.

Fixed Header Issue on the RFI Summary Report

Fixed Security Markings on QC/QA Daily Reports

Updated Footer Security Markings with CUI Marking Handbook Requirements (Controlled)

Changing FOUO for Controlled in accordance with the CUI Marking Handbook.

Fixed Several Formatting Issues with the Activity Schedule

Fixed CSV Exports Showing Textboxes on the CSV

Telerik allows for CSV exporting. However, not all reports support CSV export. Please see the below table for reports that do not support CSV export. Future releases will prevent CSV export on these reports.

Report Name	Exportable (Y/N)	Comments
Contract Status	N	Not exportable in easy to read format due to the design of the report template
QA Reports	N	Not exportable in easy to read format due to the design of the report template
Dredging Production	N	
3 phase Control Worksheet initial	N	This is a report designed for handwritten notes
3 phase Control Worksheet prep	N	This is a report designed for handwritten notes
3 phase Control Worksheet control meetings	N	This is a report designed for handwritten notes
A Quad Report	N	Not exportable in easy to read format due to the design of the report template
DD1354	N	This only exports the table not the header info
ENG 93	N	Not exportable in easy to read format due to the design of the report template
Hopper Dredge Form 27A	N	Not exportable in easy to read format due to the design of the report template
Form 3735-A dredge QC Daily Log Report	N	
Three Phase Schedule	N	This is a report designed for handwritten notes
Three Phase Schedule	N	This is a report designed for handwritten notes
Three Phase Schedule Final	N	This is a report designed for handwritten notes
Mod routing Slip	N	Not exportable in easy to read format due to the design of the report template

Summary Reports		
Contract Status Sheet Summary Version	N	Not exportable in easy to read format due to the design of the report template
Contract Status Sheet by Phase	N	Not exportable in easy to read format due to the design of the report template
Dredging production by Contract	N	This is EXCEL ONLY REPORT
SF30 - Contract	N	Not exportable in easy to read format
