2 New Features / Changes / Issues Fixed

1. Login Security Banner Changed

Due to RMF requirements, RMS now displays a security banner that requires acknowledgement before proceeding to the RMS login prompt. This is a standard DoD Notice and Consent banner.

2. Security Markings on Reports Updated

For security compliance, report classification must be displayed as "Controlled Unclassified Information." This label now appears in the header of RMS reports.

3. BCD Report Fixes

The following issues were fixed with the BCD reports:

1. In some cases, the BCD report was cutting information off on the right-hand side.
2. The signature name blocks were not reflecting entered data correctly.
3. Also fixed a crash in rare cases when generating BCD report in some contracts.

4. 4025 Remarks Fix

Some contracts had problems generating the Gov't Remarks for a Transmittal due to invalid characters in the report. This has been fixed.

```
"", hexadecimal value 0x16, is an invalid character.
```

5. Archiving Dialog Box Fix

Some users had problems archiving contracts when attempting to archive with a non-CAC Government account (the password box was out of view). This has been fixed.

6. Progress Payment Subcontract Earnings Header Fix

When attempting to export the Progress Payment to PDF or Excel – headers were incorrect. This has been fixed.

7. RFI Form Header Fix

On some contracts with long delivery order numbers, the RFI Form would fail to generate the header portion of the report. This has been fixed.
