1 Introduction

This document provides the details of the RMS application changes to accommodate the upgrade to patch 347, which was released on April 27, 2022. Please note this is a hotfix release.

1.1 Overview

The changes for this release are summarized below:

New Features/Changes/Issues Fixed

1. Updating RMS to Handle UEI Codes in Place of DUNS Numbers
 - a. Action Items Report updated
 - b. CPARS Screens Updated
 - c. Active Prime Contractors Summary Report
 - d. District Office Prime Contractor Screens
 - e. Contract Prime Contractor Lookup
2. Fixed DD1354 Bug with Decimal Rounding Issue on Item Costs

1.2 Contact

If issues or concerns should arise, please contact the Help Desk.

- Toll Free: 442-333-1011 – RMS Helpdesk Tech Support Center
- Operation Hours: 24/7, excluding holidays

2 New Features / Changes / Issues Fixed

1. Updating RMS to Handle UEI Codes in Place of DUNS Numbers

RMS has been updated to handle inputting of UEI numbers for Prime Contractors. Please note this can only be done by District Administrators in the District Office → Prime Contractors screen. Once that is updated this value will appear on all contract's Administration → Prime Contractor screens and will populate on corresponding reports and lookups.

Please see this powerpoint located on the RMS Website here:

<http://rms.usace.army.mil/datafiles/RMSUEI.pptx> (2MB) or

<http://rms.usace.army.mil/datafiles/RMSUEI.pdf> (497KB).

2. Fixed DD1354 Bug with Decimal Rounding Issues on Item Costs

This is in the Closeout → DD1354 Transfers screen. There were issues with rounding on the project costs that have now been fixed (specifically box 28 plus equipment costs). The generated report will now be correct.
