2 New Features / Changes / Issues Fixed

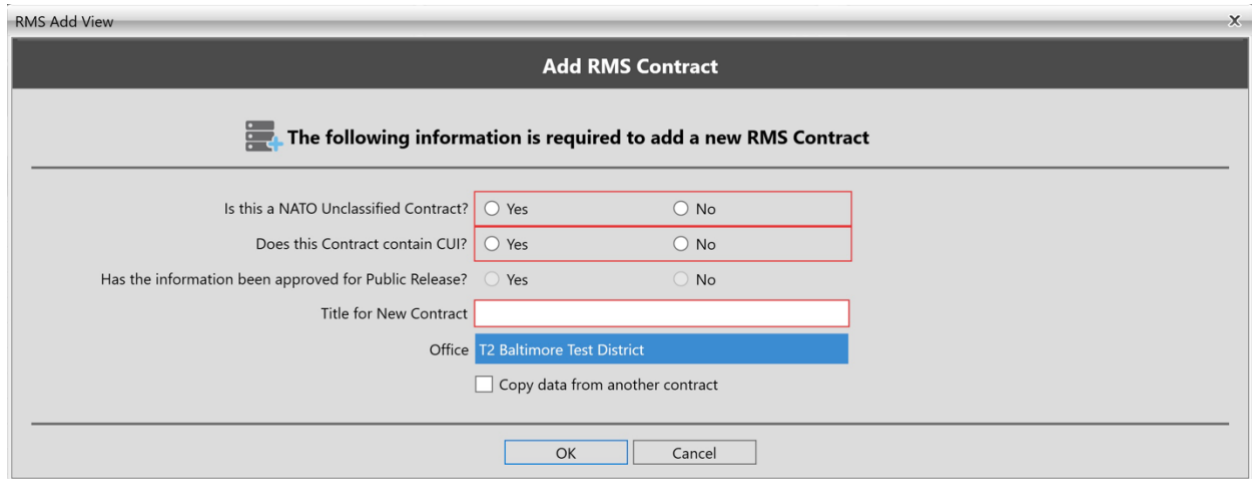

2.1 Adding New Contract No Longer Requires CUI Setting

This Release of RMS (Below):

When adding a contract, RMS will no longer require CUI settings to be set (above). Previously only District Admins could add a contract and CUI markings were required. This has been removed.

Previously RMS did this (OLD VERSION):

Also note that CUI settings can still be set in the Administration → Contract Setup screen once inside of a contract. CUI settings are not required to be set at this point in time.
